Like a plush: to hug, pet and care for

Clinical use: as a coping strategy, e.g. you can buy a shy cat for a scared child, which then helps the child to analyze his fears without focussing directly on his own fears, that then might would lead to a thought blockade & avoidance behavior instead of the things that caused the fear and to analyze them objectively

Use Cases

(Hopefully not Elmyra Duff)

As an ally but unfortunately also by some to mistreat (Anonymous ⇒ Case Dusty; where I would expected, that Kenny "learned" **violence** **eg from his father?**)

In the preamble of the Swiss Federal Constitution is written: **In the name of God!** We can therefore assume that for everything that went wrong, Satan produced an article for, and over the years he even produced laws and regulations that benefits a single supplier or cartel for a specific application, (for example, Swiss fire protection regulations)

Use Cases

Mark of Cain: If it has not worked out with religion, moral, honesty and truth. (At the moment)
