

## Submissive Pet

### Inventor

God

### Year

~0

Like a plush: to hug, pet and care for

**Clinical use:** as a coping strategy, e.g. you can buy a shy cat for a scared child, which then helps the child to analyze his fears without focussing directly on his own fears, that then might would lead to a thought blockade & avoidance behavior instead of the things that caused the fear and to analyze them objectively

### Use Cases

(Hopefully not Elmyra Duff)

As an ally but unfortunately also by some to mistreat (Anonymous ⇒ Case Dusty; where I would expected, that Kenny "learned" **violence** **eg from his father?**)

## Law article

# §§§

### Inventor

Satan

### Year

~0

In the preamble of the Swiss Federal Constitution is written: **In the name of God!** We can therefore assume that for everything that went wrong, Satan produced an article for, and over the years he even produced laws and regulations that benefits a single supplier or cartel for a specific application, (for example, Swiss fire protection regulations)

### Use Cases

**Mark of Cain:** If it has not worked out with religion, moral, honesty and truth. (At the moment)
