Chains Rattling - Function

Inventor Satan

Year ???

Most children are "shipped" with items / behavioral patterns to make noise, Satan then uses these functions (stimuli-response-habits) to terrorize victims, relatives, targeted individuals, to hunt them with as many chain rattling RUST™-Bots as he can = psychological Warfare. The child gets "incentives" when it uses such functions and is not aware about the effect to victims. Example: the 18 year old who bought a car and rev the engine.

Use Cases

To intimidate the victims (who do not directly see where the "chain rattling" comes from), The Child: "Yay, making noises (unheard: then I'll be less ignored)"
