

Global Warfare

Inventor Satan

Year ~0

After the CIA most likely blew up the Twin Towers itself, George W. Bush declared accused countries media-effective to Terrorist-Countries (the Islamic areas are the oil-rich areas; source Prof. Dr. Daniele Ganser @Unibasel) In Western Media quite suggestive: "The War AGAINST Terror is only beginning" and many of us unfortunately believed the lie, in fact it was imperialism "promoted" by weapons industry, all lost, except those who sold Surveillance & Arms

Use Cases

Unfortunately to many use cases, to expose such things is dangerous. **The weapon industry unfortunately has no mercy with killing innocents for more profit**

carrot (German: Zuckerbrot)

Inventor God

Year ~0

German: Sugar not Carrot. The brain tells the "child", you have to eat that again (because sugar has a lot of energy) so you want more sugar/carrots. Unfortunately, it is also possible, to use the carrot to lead the child into the wrong direction: for example, if someone would reward it, if one tears the little sister at her hairs, this would be programmed too. Parents who would do such crap, would deny the existence of **Behavioral "Sciences"**...

Use Cases

In every sweets store, every kiosk, every corner there are sugar-armed salesmen that argue, that they are Zachaeus, chief tax-farmer and would claim that they are entitled take the money for carrots.
